Which CapTel is right for you: 840i, 880i and 2400i
These CapTels are for people with telephone service and high-speed internet, and can be positioned anywhere within your wireless network range or it can be connected to your Internet with an Ethernet cable; Wi-Fi compatible.

The 840i is the most elderly friendly, with hard buttons and Yes and No menu control. The 880i is for people with low vision, who have difficulty viewing standard size captions. The 2400i is for people who prefer touchscreen technology and has a speakerphone.
